

HOW GREEN IS YOUR SCHOOL?

Eco Schools Market Harborough

ECO SCHOOLS MH AND HOW WE CAN HELP YOU GO GREEN

Would you like your school to be a little greener? We are setting up a resource group dedicated to helping local schools with environmentally friendly and sustainable projects.

Short on time, resources or ideas? We can provide resources, inspiration and local links to make the planning and implementation much easier.

Already have plans? The aim is also to create a forum for schools to learn from and share with each other. Schools can have as much or as little ownership of and input into the group as wished.

**WINTER: TIME TO
PLANT TREES**

**REWILD YOUR
PLAYGROUND**

WHO ARE WE?

Kimberley Durham – Mum to three, PhD Biologist, keen gardener, & allotment-er with 6 years experience of running a successful school gardening club.

Kate Mbariti – Qualified primary teacher (currently at home with my children) and keen vegetable grower - I would love to help make a positive impact on our local environment.

Kay Hillier - Previous youth worker & experienced teaching assistant, (currently working with children still attending school) yet another keen allotment holder, gardener and lover of all things that can work to help our environment.

WE WOULD LOVE TO KNOW YOUR THOUGHTS!!

We have set up a survey so that we can tailor our resources to best meet your needs. It will take around two minutes to fill in and we would really appreciate your responses.

Link to survey:

**"DID YOU KNOW
THAT
WE CAN HELP
YOU PLANT
TREES &
INCREASE
BIODIVERSITY IN
YOUR SCHOOL?"**

REWILD YOUR PLAYGROUND

Tree planting at Market Harborough Church of England Academy. On the 12th of December 2020 parents and children from the school planted 450 trees in the school grounds. There were plenty of willing volunteers and much fun was had at the (socially distanced) planting event (605 trees have been planted in 3 local schools in December).
